

# Membership Agreement

In addition to the general Code of Conduct for all participants, members must review and agree to the following:

The membership fee adopted in month one of membership has a lifetime guarantee under the following auspices:

- a. The member is enrolled in autopay monthly and does not lapse in payments nor make late payment;
- b. The member is eligible for ALL regular weekly classes currently running on the regular published calendar; their membership payment does not include special events, workshops, specialized trainings or practicums;
- c. The member conducts themselves according to the Code of Conduct as published online at [littleswitch.yoga](http://littleswitch.yoga);
- d. Little Switch Yoga is running out of the Vasa Hall location, 1941 Riverside Avenue Suite 4 Hoquiam WA 98550 as owned by Paraiso Property Professionals;
- e. Little Switch Yoga is still being operated as a solopreneurship or LLC by Agni Hogaboom, sole owner;
- f. There is a financial solvency of the sliding scale platform such that the group is supported. In other words, if there are not enough Members to cover all overhead and variable costs of the operation (including rent), Membership rates may be retooled or disbanded;
- g. The member understands this is a small yoga collective and that instructors sometimes take vacations, mental health breaks, and/or have family emergencies. Therefore membership is not a guarantee of an exact number of classes available per month; some months there will be more classes, a very few months there may be fewer;
- h. The member is agreeing to keep themselves informed of class changes, updates or restructures through Little Switch's primary mode of communication (currently: email from [hello@littleswitch.yoga](mailto:hello@littleswitch.yoga)).

## Membership Agreement (p. 2)

The member also affirms they have carefully reviewed whether drop-in participation is a better fit for them at this time, and have decided to enroll in membership not solely for the financial savings but as a method to commit to the health, happiness, and constructive community action for ALL members.

In other words: members aren't members solely to save money, but also to invest and provide stability to the local yoga community.

Remember, there are all kinds of yoga classes here in Grays Harbor! There are more than enough classes, studios and other types and teachers of yoga to keep all practitioners happy.

Little Switch is built on intentional community participation, not a corporate mentality.

Membership participation keeps the lights on and helps us create something very special!

Thank you for your consideration.
